THE ENGINEERS OF ACOUSTICS

Porsche Design

Porsche Design was founded by and based on a unique personality-Prof. F.A. Porsche. He had a distinctive vision of good design-Engineered. Purposeful. Bold. Inspiring.

Having created the Porsche 911 and the Porsche 904 in the early 1960's. Prof. F.A. Porsche launched Porsche Design in 1972. Since then, very special everyday objects have come to life at the Porsche Design Studio.

"If you consider an object's function you may intuitively find its form." Professor Ferdinand Alexander Porsche

Etón Corporation

At Etón, we understand the information truly is power. Our mission is to empower the world through direct access to news, information, and entertainment. No matter where in the world our customers are, Etón radios keep them up-to-date and well-informed.

Our products are made to fit your lifestyle. Whether you are out on your boat, camping with your friends, lounging at the beach or snowboarding in the Sierras, Etón has a radio for you. You can listen to radio stations from around the world, tune into the weather forecast, play MP3's, and even get satellite radio stations.

At Etón, we understand that radio is a powerful, global medium. Wherever you are, our products are right there with you. So tap into the airwaves and hear us now.

PORSCHE DESIGN AUDIO P'9120

Table Top Stereo System with Dock for iPod/XM Ready/AM/FM/Shortwave/RDS [Radio Data System]

Some say it's enough for a radio to sound good - we think it takes more than that. The Porsche Design P'9120 by Etón captures the essence of what made Porsche Design legendary: a clean, linear shape. A design that is engineered. A form that reflects functionality. Its audio performance stays true to the Etón name - presenting a new generation of radios. Multi band radio reception is projected through three full range speakers and a powerful subwoofer.

- High-Performance AM/FM/Shortwave/XM Satellite Ready Radio with separate made for iPod dock
- Body extruded from high-quality aluminum
- Double wall construction for superior acoustics
- Geometric acrylic block is seamlessly fused to the metal housing in a modern design
- OLED alphanumeric display with channel save button
- Metal remote control with torch
- 12/24 hour clock
- Alarm battery backup [4xAA batteries not included]
- Three 1.5" full-range drivers provide well-balanced, crystal-clear, and realistic fidelity experience
- 3" active subwoofer provides bone-rattling bass and incredible clarity
- Subwoofer amplifier power: 15W RMS
- Subwoofer driver frequency response: 87Hz — 2.5KHz
- Sub port solution provides superior bass response, ventilation and breathing
- Rubberized black paint on the speaker grill for unique texture, appearance and durability
- Ventilation system ensures sufficient cool air circulation and exhausting of heat
- Memory presets: 10 AM/ 10 FM / 20 XM / 10 SW
- Manual tuning
- Rear panel connector layout
 1. Removable telescopic AM/FM/Shortwave aerial antenna [coax cable compatible]
 2. Jack for AM loop antenna
 3. Satellite connection for XM radio antenna [not included]
 4. DC in jack is used to connect the external power adapter [13.5V DC 3A, included]
 5. 9 pin S-type connector for iPod dock
 6. 3.5mm stereo headphone jack
 7. 3.5mm aux in stereo jack for external analogue audio input
 8. 3.5mm line out stereo jack
- Power source: [100-240VAC, 50/60Hz] AC adapter with output of 13.5 V DC 3A
- Dimensions: 5.25" x 5.55" x 9.02" and 130 mm x 141 mm x 229 mm [WxHxD]
- Weight: 6.17 lbs and 2.8kg
- Accessories: owner's manual, warranty card, detachable external power adapter, dock for iPod, remote control, AM loop antenna, double antenna tool

PORSCHE DESIGN AUDIO P'9110

Emergency Crank Radio with AM/FM/Shortwave

Forged from metal with precision knurled knobs and handles, the Porsche Design P'9110 by Etón redefines crank radios. Providing the freedom to be independent, but connected wherever you go, the unit utilizes dual conversion super-heterodyne technology, ensuring accurate reception. Features include multi-band reception, LED flashlight, cell-phone charger and siren.

- Tunes into AM/FM and selectable Shortwave bands [SW1-6]. Traditional analog tuner with classic dial scale, compatible with Japanese and European frequencies
- Crafted from metal with cast aluminum housing
- Crank power generator recharges the internal rechargeable Ni-MH batteries for radio and triple LED flashlight system
- Built-in dynamo cell phone charger that can charge many cell phones with the proper tip [includes tip voucher]
- Built-in, ultra bright dual white LED flashlight let you crank, walk and illuminate at the same time
- Red LED emergency flashing
- Triple LED indicator gauge system: Red = Power on; Green = Charging; Yellow = Radio reception signal strength
- Emergency siren
- Machine bolt treatment
- Crank handle magnetic locking system
- Controls/knobs are precise and balanced
- Metal teeth and tuning wheels are made from aluminum extrusion
- Built-in AM and FM/Shortwave aerial antenna
- Black rubberized speaker grill for cool texture and durability
- Four molded feet are built in to the metal housing to prevent scratching and sliding on most surfaces
- Aluminum cover plate
- Inputs: 6V DC adapter
- Outputs: stereo headphone, phone charger
- Power Source: 1. Dynamo power, 2. 3 AAA rechargeable Ni-MH batteries [included], 3. 3 AAA alkaline batteries [not included], 4. AC adapter [included]
- Dimensions: 6.8" x 3.4" x 1.7" and 173mm x 87.5mm x 42mm [WxHxD]
- Weight: 1.74 lbs. [2.18 lbs. with adapter] and 0,79kg [0,99kg with adapter]
- Accessories: owner's manual, guarantee card, warranty card, AC adapter, card for cell phone tip or cell phone tips [depending on country], 3 AAA Ni-MH batteries

MULTI-BAND
P 9121**

P 9121
Multi-band. Three wide range loudspeakers for a crystal-clear, multi-band sound reproduction. Powerful active 3-watt subwoofer. P 9121 makes radio a completely new acoustic and visual experience. The clear contours of the design are particularly shown in their advantage through materials such as anodized aluminum and die cast metal.
The universal dock for iPod expands its potential uses, as do the range of connections to external analog audio sources and the stereo line out for headphones. Manual channel search, channel save button, 12 | 24 hour time display, alarm clock with safety battery.

Dimensions: 133.35mm x 209.55mm x 136.7mm
